# Our Services

## **Tax Consultancy**

---

We offer comprehensive taxation services designed to ensure businesses remain compliant with the tax regulations in both Saudi Arabia (KSA) and Pakistan. Our services cover tax compliance and filing, including VAT, income tax, corporate tax, and Zakat, as well as personalized tax planning and advisory to help optimize tax efficiency. By leveraging our expertise, clients can reduce their tax liabilities, maximize deductions, and stay ahead of regulatory changes. Our cross-border taxation knowledge ensures seamless compliance for businesses operating in both regions. With our expert team handling tax filings and strategic planning, clients can focus on their core business activities while benefiting from timely, accurate, and cost-effective tax management, ensuring peace of mind and long-term financial health.

## **Bookkeeping**

---

Our bookkeeping services ensure that your daily financial transactions are recorded accurately and systematically. We maintain both general and subsidiary ledgers, track all incoming and outgoing transactions, and reconcile bank statements regularly. This allows businesses to have organized, up-to-date financial records, ensuring transparency and accuracy in all financial matters.

# Our Services

## Accounting

---

Our accounting services go beyond bookkeeping by preparing key financial statements, including balance sheets, income statements, and cash flow statements. We manage trial balances, make necessary adjusting entries, and ensure full compliance with accounting standards and regulatory requirements. This enables businesses to have a clear and precise financial overview, supporting informed decision-making and long-term planning.

## Financial Analysis

---

Our Financial Modeling and Planning Services are designed to help businesses make informed, data-driven decisions by providing clear financial forecasts and strategic insights. We create detailed financial models that simulate various business scenarios, allowing companies to assess potential outcomes and plan accordingly. Our services include budgeting, cash flow forecasting, and financial scenario analysis, which help businesses understand their financial health, optimize resource allocation, and identify growth opportunities.

# Our Services

## **Data Analytics**

---

Our service specializes in developing customized Power BI dashboards. We focus on creating clear, interactive, and real-time dashboards that help in strategic decision-making. Our expertise includes data integration, visualization, and dashboard optimization for businesses of all sizes. We understand the unique needs of industries and tailor our dashboards to meet specific requirements. By leveraging the latest features of Power BI, we help you transform raw data into meaningful insights. Our goal is to empower your team to make data-driven decisions confidently.
